

Curriculum Vitae

Aron Rez D. Arboleda | BSCS Graduate | arboleda.aronrez@gmail.com
+63 929-467-4510 | Capas, Tarlac, Philippines
Portfolio: <https://aronarboleda.vercel.app/>

OBJECTIVE STATEMENT

a BSCS graduate with experience developing web, desktop, and mobile applications using React, TypeScript, Python, and PHP. Built AI-powered healthcare and GIS applications through academic and freelance projects. Seeking a software engineering role where I can contribute to scalable software solutions while continuing to grow as a developer.

EDUCATION

College

Tarlac State University | Tarlac, Philippines **July 2026**
Bachelor of Science in Computer Science

- Honors:** Magna Cum Laude
- Final GWA:** 1.24

Senior High School

Capas National High School | Capas, Tarlac, Philippines **May 2022**
Science Technology Engineering and Mathematics (STEM)

- Honors:** With Highest Honor

Junior High School

Capas National High School | Capas, Tarlac, Philippines **May 2020**
Specialization: Computer System Servicing

- Honors:** With Honors

CERTIFICATES

RAITE Hackathon | Regional Competition | Web3 **Nov. 2024**

- Certificate of Participation

Cisco | CCNAv7: Switching, Routing, and Wireless Essentials **June 2024**

- Configured switches and WLAN

Cisco | CCNAv7: Introduction to Networks **Jan. 2024**

- Studied OSI model and IPv4 and IPv6 addressing

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, Python, Java, C++, PHP	Desktop: Electron, Java Swing, Visual Basic
Frontend: React, HTML, CSS, TailwindCSS	Mobile: React Native + Expo
Backend: Node.js, Express, FastAPI, PHP	Databases: MySQL, Firebase, MongoDB
	Version Control: Git, GitHub

WORK EXPERIENCE

Web App Developer

May 2026

- **Work Type:** Freelance Gig
- **Link:** <https://liquefact-web.vercel.app/>
- **Location:** Tarlac City, Tarlac
- **Final Product Deliverable:** Liquefact Web App
- Integrated a neural network model into a GIS web application using Python and FastAPI.

Desktop App Developer

April 2026 - May 2026

- **Work Type:** Freelance Gig
- **Location:** Tarlac City, Tarlac
- **Final Product Deliverable:** Draft2Dimen v2 Desktop Application
- Enhanced Draft2Dimen by implementing local saving, automated steel computations, and cost estimation features.

Project Assistant

June 2025 - July 2025

- **Work Type:** On the Job Training (OJT) / Internship
- **Location:** Clark, Pampanga
- **Company:** Trackerteer Web Developer Corporation
- **Final Product Deliverable:** Inventeer Web App
- Assisted in maintaining inventory management, automating RFID product tables, and produced user guide videos for the company's systems.

Desktop App Developer

March 2025 - May 2025

- **Work Type:** Freelance Gig
- **Location:** Tarlac City, Tarlac
- **Final Product Deliverable:** Draft2Dimen Desktop Application
- Collaborated with clients and UI/UX designers to deliver project requirements.

PROJECTS

U-Heal

Jan. 2026 - Apr. 2026

React Native, Python, Firebase | Mobile Application | **Bachelor's Thesis**

A mobile eHealth system designed for remote chronic wound monitoring with added tissue classification feature using the U-Net segmentation model.

- **Contribution:** Main researcher and sole developer of the application.
- **Link of Web App:** <https://u-heal-web.vercel.app/>
- Utilized a segmentation model (U-Net) to improve the effectiveness of remote chronic wound mHealth applications.
- **Relevant Features:** Wound Documentation, Video Call, Chat, Virtual Appointment Scheduling, AI-assisted Wound Analysis, Android App with Web App Dashboard, and Tracking Charts.

Liquefact | React, TypeScript, TailwindCSS, Python | Web Application

May 2026

A geographical information system (GIS) that uses machine learning (neural networks) to estimate boreholes information in Tarlac

- **Contribution:** Developer of the web application.
- **Link:** <https://liquefact-web.vercel.app/>
- Implemented a neural network-based GIS system capable of estimating borehole locations using geological data.

Draft2Dimen Electron, React, TypeScript Desktop Application	
<i>A calculator for computing the sizes structural components (e.g. Columns, Beams, Footing, and Slab) and their corresponding rebar and cost computations.</i>	
Contribution: Software developer of the application.	
Version 1	Mar. 2025 - May 2025
Implemented structural components calculations and formula and PDF report generation using React PDF Renderer.	
Version 2	Apr. 2026 - May 2026
Local saving implementation with added cost computation and steel formula.	

Liwanag at Dunong Website		Nov. 2024 - Jan. 2025
PHP, MySQL, React, JavaScript Web Application		
<i>A full-stack web application that serves as the central web application of the Non-Governmental Organization “Liwanag at Dunong Project”.</i>		
Contribution: Software developer of the application. Link: https://liwanagatdunong.gt.tc/ - Developed an admin dashboard that streamlined volunteer application management for the organization.		

REBYU: Gamified Flashcards		Nov. 2024 - Dec. 2025
PHP, MySQL, React, JavaScript Web Application		
<i>A full-stack web application that utilizes pixelated graphics to implement gamified flashcards learning.</i>		
Contribution: Software developer of the application. Link: https://rebyu.gt.tc/ - Collaborated with a UI/UX designer to implement a customized pixel-art user interface.		

LANGUAGES

- Filipino
- English
- Kapampangan

ORGANIZATIONS

Liwanag at Dunong Capas, Tarlac, Philippines		Jul. 2024 - Jan. 2025
Developed the organization's website and helped with volunteer work for the community		
Programmers' Den		Oct. 2022 - Dec 2022
Tarlac State University Tarlac City, Tarlac, Philippines		
Member of the Organization.		

COMPETITIONS

RAITE Hackathon Web3 ICPHubs Regional Competition		Nov. 2024 - Dec 2024
Member of the hackathon team and gained a certificate for participation.
